

Security Systems Engineer required to join us!!

Are you looking for a new role in a company that cares for its employees?

Are you looking for a new role in a company that has been trading for over 30 years and can offer stability and long-term employment?

Do you want to be recognised for your skills and commitment?

Do you want to be part of a team as opposed to just an employee?

Avon Alarms Ltd Systems are looking to recruit Security Systems Engineer's with experience of security systems to join our team and to undertake a challenging and rewarding role within our expanding business.

The candidate will be expected to carry out corrective maintenance and attend/diagnose & repair faults when required along with installation, commissioning and maintenance of Intruder alarms. Access control, CCTV and other associated systems. Avon Alarms Ltd provide 24-hour support to our customers, so you would also receive additional overtime/pay by being part of this. The role has scope for career progression to suit the business requirements for suitable candidates.

The ideal candidate would ideally have commercial & residential experience and possess experience of installation and/or maintenance/service of security systems.

The ideal candidate must have a flexible approach to work, be self-motivated and possess an excellent attitude to customer service. They must be able to present engineering written reports and comply with all company procedures. A full UK driving licence and no criminal record are essential as screening to BS 7858 will be required.

For the successful candidate we offer the following:

Competitive Salary dependent on experience plus bonus and overtime

Company Pension Scheme

Minimum of 21 days holiday plus Bank Holidays

Company Vehicle

Mobile Phone

Laptop

Scope for career progression

Location – Bristol/South West

Hours - 40 Hours per week

If you are interested in the above position please forward CV to Jason.King@avonalarmsgroup.co.uk or fill out our online form!
